AUSTRALIAN JOURNAL OF EXPERIMENTAL AGRICULTURE AND ANIMAL HUSBANDRY

CONTENTS VOLUME 22 1982

Numbers 114 & 115 April

Effects of fasting and transport on liveweight loss and the prediction of hot carcase weight of cattle —R. J. Smith, P. J. Nicholls, J. M. Thompson and D. M. Ryan 4

Effect of body condition at calving and level of feeding in early lactation on milk production of dairy cows—C. Grainger, G. D. Wilhelms and A. A. McGowan 9

Production responses in selenium supplemented sheep in northern New South Wales. 1. Infertility in ewes and associated production—J. F. Wilkins and R. J. Kilgour 18

Production responses in selenium supplemented sheep in northern New South Wales. 2. Liveweight gain, wool production and reproductive performance in young Merino ewes given selenium and copper supplements—J. F. Wilkins, R. J. Kilgour, A. C. Gleeson, R. J. Cox, S. J. Geddes and I. H. Simpson 24

Control of goitre in lambs by injection of ewes with iodized poppy seed oil—M. Statham and T. B. Koen 29

Labelled waters of crystallization in gypsum to measure the intake by sheep of loose and compressed mineral supplements—R. L. Rocks, J. L. Wheeler and D. A. Hedges 35

Taints in meat from sheep grazing *Parthenium hysterophorus*—G. D. Tudor, Anne L. Ford, T. R. Armstrong and E. K. Bromage 43

Offspring-sire regressions for production traits of pigs in a West Australian selection herd —C. A. Morris, B. M. Goss and R. H. Wolskel 47

Effect of late application of nitrogen on the yield and protein content of wheat—W. M. Strong 54

Response of Inga rice to nitrogen fertilizer rate and timing in New South Wales—D. P. Heenan and L. G. Lewin 62

The phenology of eight cereal, grain legume, and oilseed crops in South Australia—R. J. French and J. E. Schultz 67

Growth and yield studies of *Lupinus angustifolius* and *L. albus* in Victoria—K. A. Boundy, T. G. Reeves and H. D. Brooke 76

Effect of age at initiation of short-day treatment on earliness to flower in three *Stylosanthes guianensis* genotypes—J. W. Miles 83

Effect of land preparation and nitrogen fertilizer on yield and quality of temperate species introduced into a tropical grass sward during autumn—I. K. Goodchild, P. N. Thurbon, R. Sibbick and R. Shepherd 88

Initial and medium-term responses of white clover to three sulfur fertilizers on a basaltic soil —B. D. McLaughlin and I. C. R. Holford 95

Response of Inga rice to nitrogen fertilizer rate and timing in New South Wales—D. P. Heenan and L. G. Lewin 62

The phenology of eight cereal, grain legume, and oilseed crops in South Australia—R. J. French and J. E. Schultz 67

Growth and yield studies of *Lupinus angustifolius* and *L. albus* in Victoria—K. A. Boundy, T. G. Reeves and H. D. Brooke 76

Effect of age at initiation of short-day treatment on earliness to flower in three *Stylosanthes guianensis* genotypes—J. W. Miles 83

Effect of land preparation and nitrogen fertilizer on yield and quality of temperate species introduced into a tropical grass sward during autumn—I. K. Goodchild, P. N. Thurbon, R. Sibbick and R. Shepherd 88

Initial and medium-term responses of white clover to three sulfur fertilizers on a basaltic soil —B. D. McLaughlin and I. C. R. Holford 95

Effects of limestone on pasture yields and the pH of two krasnozems in north-western Tasmania —B. A. Rowe 100
Residues in soil, pasture and grazing dairy cattle after the incorporation of dieldrin and heptachlor into soil before sowing—W. S. Gilbert and C. E. Lewis 106
Methyl bromide fumigation and cold storage for disinfestation of Granny Smith apples against Queensland and Mediterranean fruit flies—L. E. Rippon, G. Singh, A. N. Sproul and W. S. Gilbert 116
Honeybee pollination of oilseed rape, cultivar Midas—D. F. Langridge and R. D. Goodman 124
Population estimates of insect pests of stored products on farms on the Darling Downs, Queensland —E. R. Sinclair 127
Ground control of nymphal (hopper) bands of the Australian plague locust in eastern Australia —D. E. Wright 133

Number 116 June

Cottonseed meal and molasses as sources of protein and energy for cattle offered low quality hay from pastures of the North Coast of New South Wales—D. W. Hennessy and R. D. Murison 140
Milk yields from feeding maize silage and meat-and-bone meal to Friesian cows grazing a tropical grass and legume pasture—T. M. Davison, R. J. Marschke and G. W. Brown 147
The production and composition of milk from dairy cows fed hay and supplemented with either brewers' grains or rolled barley grain—S. C. Valentine and R. B. Wickes 155
Effect of the liveweight of caged sheep on the digestibility of grasses fed *ad libitum*—D. J. Minson and D. Ratcliff 159
Effect of artificial wind on sheep movement along indoor races—G. D. Hutson and S. C. van Mourik 163
Factors influencing fleece rot in sheep—M. Lipson, R. A. Hilton, J. E. Watts and G. C. Merritt 168
Skin and fleece characteristics of two groups of feral goats—P. J. Holst, W. H. Clarke and I. G. Maddocks 173
Performance of grazed creeping-rooted lucernes on two soils in central Queensland—D. Gramshaw, H. G. Bishop and D. H. Ludke 177
Relations between stocking rate, environment and scorch disease on grazed subterranean clover pasture in Western Australia—W. K. Anderson, R. J. Parkin and M. D. Dovey 182
A standard technique for detecting seed transmitted *Phomopsis leptostromiformis* of lupins and for testing commercial seed in South Australia—S. M. Ali, J. Paterson and J. Crosby 190
The effect of gypsum and irrigation frequency on irrigated white clover pastures grown on three soils of the Riverine Plain of south-eastern Australia—B. J. Bridge and J. Tunny 194
The relation between wheat yield and early damage of roots by cereal cyst nematode—A. Simon and A. D. Rovira 201
Population estimates of cereal cyst nematode and response of wheat to granular nematicides —P. M. King, A. D. Rovira, P. G. Brisbane, A. Simon and R. H. Brown 209
Effect of *Alternaria carthami* on the yield, yield components and seed quality of safflower —K. J. Jackson, J. A. G. Irwin and J. E. Berthelsen 221
Effects of timing of foliar zinc fertilizer on yield components of soybeans—L. W. Banks 226
Nutrient status of apple trees in two productive orchards in Tasmania—A. M. Graley 232
Production of early rockmelons with polythene mulches and tunnels—R. A. Sarooshi, H. Creecy and G. C. Harrison 239
Effects of simulated hail damage on yield and quality of flue-cured tobacco—D. M. Whitfield 244

Number 117 August

Liveweight of grazing steers supplemented with molasses, urea and sulfur in northern Queensland —L. Winks, P. K. O'Rourke and S. R. McLennan 252
A comparison of the growth rate and carcase characteristics of steers and heifers when entire, spayed, pregnant or fitted with an intravaginal device—G. R. Saul, S. R. Baud, J. W. McDonald, C. McRae and A. J. Clark 258
Response of ewes to lupin supplementation at different times of the breeding season—P. B. Gherardi and D. R. Lindsay 264
Mating activity and reproductive performance in Merino flocks where ram percentages are 1.0, 0.5 and 0.25—D. G. Fowler 268
Productivity of classers' grades and sire selection differentials for fleece weight in two Merino studs —B. J. McGuirk, Mary Rose and R. Scott 274
Effect of age, maternal handicap, birth and survival type on five fleece and body characters of Corriedale rams—K. M. Napier and L. P. Jones 281
Genetic relations among five lines of *Stylosanthes guianensis*—J. E. Sumberg and J. W. Miles 288
Rhizosphere populations of Rhizobium strains and nodulation of *Leucaena leucocephala* —H. V. A. Bushby 293
Effects of spray inoculation equipment on the viability of *Rhizobium* spp. in liquid inoculants for legumes—R. R. Gault, D. L. Chase and J. Brockwell 299
Weed control and row spacing in dry-land sorghum in northern New South Wales—J. F. Holland and D. W. McNamara 310
Effect of parent material, natural available soil boron, and applied boron and lime on the growth and chemical composition of lucerne on some acidic soils of the Central Tablelands of New South Wales—K. S. Haddad and C. J. Kaldor 317
Current requirements of copper for pasture and sheep production on sandy soils in the upper south-east of South Australia—R. J. Hannam, G. J. Judson, D. J. Reuter, L. D. McLaren and J. D. McFarlane 324
The effect of potassium and nitrogen fertilizers on the yield, fruit quality and leaf analysis of Imperial mandarins—J. C. Chapman 331
Response of pre-harvest drop of grapefruit on two rootstocks to 2,4-D, MCPA and gibberellic acid —R. A. Sarooshi 337
Methyl bromide and inorganic bromide residues in avocados after fumigation and storage—G. Singh, L. E. Rippon and W. S. Gilbert 343
A standard technique for detecting seed-borne pathogens in peas, chemical control, and testing commercial seed in South Australia—S. M. Ali, J. Paterson and J. Crosby 348
The probable long association of beet western yellows virus with the potato leaf roll syndrome in Tasmania—J. E. Duffus and G. R. Johnstone 353
Field performance of tomato varieties resistant to root-knot nematodes—G. R. Stirling and M. F. Wachtel 357

Numbers 118 & 119 November

Comparative productivity of perennial and annual pastures under continuous grazing by sheep —A. L. Rogers, E. F. Biddiscombe, R. J. W. Barron and D. J. Briegel 364
The performance of introduced grasses in seasonally dry tropical environments in northern Australia —J. G. McIvor, W. T. Williams, P. Anning, R. L. Clem and M. C. Finlay 373

Studies on some neutral red duplex soils (Dr 2.12) in north-eastern Queensland. 4. Field studies of nutrient responses with Caribbean stylo—M. E. Probert and R. K. Jones 382
Seasonal changes in the proportion and quality of plant parts of nine *Stylosanthes* lines—C.J. Gardener, R. G. Megarrity and M. N. McLeod 391
Yield response of semi-dwarf rice varieties to applied nitrogen in New South Wales—R. A. Hartley and F. L. Milthorpe 402
The nutrition of peanuts on cockatoo sands of the Ord River Valley—R. C. N. Laurence 407
The effectiveness of several fertilizers in supplying sulfur to temperate pastures—B. S. Dear and K. Spencer 412
Effect of sulfur application on selenium content of subterranean clover plants grown at different levels of selenium supply—K. Spencer 420
Phosphorus status of subterranean clover: a rapid and simple leaf test—D. Bouma and E. J. Dowling 428
Control of ripe fruit rots of guavas by heated benomyl and guazatine dips—R. B. H. Wills, B. I. Brown and K.J. Scott 437
Post-harvest control of anthracnose and stem-end rots of Fuerte avocados with Prochloraz and other fungicides—I. F. Muirhead, R. D. Fitzell, R. D. Davis and R. A. Peterson 441
Daminozide residues in cherries and peaches resulting from daminozide spray to enhance fruit maturity—N. Ahmad, R. J. Hutton, A. R. Menzies and W. S. Gilbert 447
Annual contents and author index 450
